alignment through everything we are already measuring. Chancellor wants this information to not be password protected. However, need to be aware of the data's issues as MIS data can be unreliable. Funding is tied to these outcomes as well.  
-Aligning this to our annual unit planning, which is forward planning versus program review which is retro (program review is based on the SP).  
-By December 15th, ARC needs to certify that development of measurable aligned goals is in progress. There is a deadline for district to adopt as well. Need to align work across the councils and district. Create our own timeline to understand the process?  
-Need direction from college president regarding what is the expected deliverable from the college.
