Cheryl Sears	Operations Director updated Council on facilities: STEM building engineers are commissioning the building to approve occupancy; Tech Ed's new building is completing IT; Natomas' new building is completing furniture and has converted 101 classroom to a lab; Admissions Records' safety glass is installed so the Business Office may complete moving employees; Wayfinding will be ready for return to campus; Ranch House being used to hand out equipment to students and employees.

New document cameras are available to teachers and others. More chromebooks are needed - District has loaned out 1,000 and ARC has loaned out 400 of the 500 available, but students may continue to use chromebook as long as they are enrolled so more are needed.

Los Rios will operate on X Budget level. 2020-21 Continue with 2020-21 Budget Reductions: (1) 10% reduction to fall and spring instructional schedule (2) 10% reduction in vacancy factor for classified and management positions (3) Significantly scaled back operational budgets (4) Utilize CARES Act and COVID Block Grant funding to mitigate costs

What is the feedback on ARC's Equitable Decision-Making Tool?	Koue Vang, Olga Prizhbilov	Checked in with group if anyone had feedback regarding the tool. No feedback. Ok with moving forward.
Handshake - the job search platform available to all students across the district	Koue Vang	College divisions are required to post and advertise student help jobs in Handshake. Adoption of this new policy would not only benefit our students, it would also help departments find the best student help. Completed intent must include Handshake job posting and student's application from Handshake to Business Services Office. Process will be implemented January 1, 2021 for ARC. If re-hiring a student that was previously employed by the division, advertising on Handshake is not required. Breanne Holland is currently working on process and will be reaching out to area.
