SEM II (2:40)	Adam Windham	10 min.
Campus Climate Survey In academic year 2021-22, the District Research Council was asked by the LRCCD Board of Trustees to develop and administer a Student Campus Climate survey with a focused lens on equity. One survey was developed, and it was administered at each college. Because of the low response rate, these reports were written from a district lens and not an individual college lens. The number of participants was high enough to report the data at the district level. The attached report looks at the average mean for responses for the aggregated 'theme' areas of the survey. Purpose: To raise awareness about the climate survey so that: 1) constituencies know the ARC Research Office has climate survey data we can possibly analyze to address specific questions, 2) we can build a culture around this survey to increase student participation in the future. Attachment: Climate Survey	Jen Laflam	10 min.
ITEMS FOR FUTURE CONSIDERATION:		
Topic	Contact Person	
We want to hear from you! If you haven't completed the "Questions, Feedback, & Topics for Next Year" form, please add your responses -- you can access the form through the link below: https://forms.gle/ycWVBgsZdfKP8BDE9	Marianne Harris
