UPDATES AND BRIEF REPORTS:			
Topic	Person(s) Responsible	Notes	
Administrative Units and Program Review At our last meeting, we discussed the utility of Administrative Units going through Program Review. The current process (template, data sets) is designed for faculty-led instructional units. Additionally, ACCJC requires units at a college to have processes for demonstrating the following: How do we do our work? How do we monitor the effectiveness of our work to support accomplishment of the college mission? While Program Review is one process, it is not the only or required one for Administrative Units according to our ACCJC liaison. We took this issue forward and ELT recommended that the college design a Program Review process that works well for Administrative Units. Does the IEC support the development of a workgroup to work on Administrative Program Review in Spring 2023 led by the Office of Institutional Effectiveness? We are also asking the Program Review Committee for similar support. Finally, we are reporting that we are going to remove any units from Program Review that are now District units, such as Health Services.	BJ Snowden, Jeff Sacha

SLO Assessment Committee AARR Survey Results, attached report, and discussion pertaining to the faculty perceptions regarding how on-campus student learning has changed since the pandemic.	Jeff Moran, Yuj Shimizu	<ul style="list-style-type: none">- Details in attached document for SLO.- 116 responses from faculty to a question regarding how on-campus teaching has changed after the pandemic.- These were analyzed and grouped by AI software. The items listed as benefits were: <ul style="list-style-type: none">--Increased student participation.--Better understanding of resources.--Appreciation of in-class learning--Improved learning environment for some subjects The items listed as challenges were: <ul style="list-style-type: none">--Shorter attention spans.--Lack of resiliency.--Same expectations as online.--Increased stress in balancing responsibilities.--Issues with access and tools.--Bad habits from online learning.--Difficulty getting students to class. The questions that came up: Should we follow-up with students? Look into mental health resources? Explore other perspectives as to why these issues came up. How can faculty change the student outcomes?
An Academic Senate workgroup has assisted in revising the questions that frame the Program Review process to more clearly align with collegewide efforts to center equity and student success. This past Thursday, the Academic Senate approved these new questions. I'd like to pose the following question for the Council to consider: What is the IEC's plan for reviewing and responding to the kinds of support that units request in order to eliminate disproportionate impact (Q5 in the new Program Review process)?	Jeff Sacha	Changes are attached. Questions were: <ul style="list-style-type: none">- What route will this new iteration go?-Where does this idea go next?
